EXPERIENCE

TRUE BMS | FULL STACK DEVELOPER
October 2023 – Now | İSTANBUL, Maltepe

- Developed and maintained full-stack web applications tailored to project requirements, while also managing and automating CI/CD pipelines to streamline deployment processes.
- Built custom web-based solutions for shopping malls and business plazas by integrating with various communication protocols, enabling seamless data exchange between systems.
- Developed a billing and energy monitoring platform for tenants and store owners in malls and plazas to track electricity consumption; the system includes remote electricity cut-off capabilities for unpaid accounts, managed by the administration.
- Leading a development team for a multi-tenant SaaS startup project, taking responsibility for team coordination, task management, and technical leadership throughout the project lifecycle.
- Managing and maintaining the company's internal and external websites, ensuring stability, performance, and content updates as needed.
- Conducting infrastructure-related tasks and optimizations using virtualization technologies such as VMware and Proxmox, including setup, configuration, and monitoring for enhanced system performance.

MIKROSEL BILISIM | INTERN COMPUTER ENGINEER
May 2023 – October 2023 | İSTANBUL, Kartal

- Developed end-to-end web-based applications tailored to corporate needs, actively contributing to both front-end and back-end layers using layered architecture, clean code principles, and design patterns.
- Implemented and integrated RESTful APIs, while also performing database modeling and performance optimization to ensure scalability, maintainability, and efficiency of the systems.

BIONLUK | FREELANCE
Aug 2022 – Now

- Designed, developed, and delivered full-stack web, mobile, and desktop applications tailored to client needs, focusing on clean architecture, secure API integrations, and responsive user interfaces. Responsible for the entire development lifecycle, including requirement analysis, UI/UX design, deployment, and post-launch support.

PROJECTS

EXCHANGO | CURRENCY EXCHANGE APPLICATION
REACT NATIVE , EXPRESS.JS, MYSQL

MAINTENA | MAINTENANCE REPORT APPLICATION
REACT.JS, REACT NATIVE , .NET CORE, MSSQL, AZURE

RENTCAR APP | RENT A CAR WEBSITE
.NET CORE, EXPRESS.JS, REACT.JS, POSTGRESQL

HAIRDRESSERS | E-APPOINMENT APP
REACT.JS, REACT NATIVE , .NET CORE, POSTGRESQL, AWS

EDUCATION

BALIKESIR UNIVERSITY
BACHELOR OF SCIENCE IN COMPUTER ENGINEERING
Graduated June 2023

SKILLS

PROGRAMMING
C#
Go
Java
JavaScript • Typescript

TECHNOLOGY
Git/Github • AWS • Azure • Docker
.Net Core • Express.js • Nest.js • Gorm
React.js • React Native
Angular • Electron
WMware • Proxmox

PERSONAL
- Responsible
- Analytical thinker
- Eager to learn
- Able to work under pressure
- Open to innovation
- Leadership skills
- Highly motivated
- Strong time management skills
- Team Player
- Proactive

CERTIFICATES

- .Net Core | CareerHubt
- C# | Microsoft
- Javascript | freeCodeCamp

SOCIETIES

- Institute of Electrical and Electronics Engineers(IEEE)
